

TECNAM WARRANTY TRANSFER CERTIFICATE

This Certificate shall extend to the initial purchaser of the Aircraft and any other person or entity to which the Aircraft title is transferred to during the applicable warranty period.

This purpose of this certificate is to ensure that New Customer information is appropriately transferred to TECNAM so that the correct procedures, warranties and contacts are accurately incorporated, shared and recorded on our TECNAM CRM.

TECNAM recommends that the "Tecnam Warranty Transfer Certificate" also be completed and submitted for cases where the aircraft has exceeded its warranty terms in order to guarantee monitoring, fleet management and appropriate service to its customers.
